Appointments are on a first-come, first-served basis. An order from a physician or qualified healthcare provider is not required, but the patient must provide a physician/provider name when an appointment is made. If the patient does not have a physician/provider, a list will be provided for selection. All mammogram reports will be sent to the physician/provider, and the patient is responsible for follow-up.

*Check with your insurance provider to confirm coverage for a screening mammogram.
